Libraries/Frameworks:	JavaScript, TypeScript, React JS, React Native, Node JS, Redux Toolkit, React Query, Mobx, Mobx State Tree, Express JS, Context API, Firebase, Material UI, Ant Design
Tools / Platforms:	Git, Git Hub, Git Lab, Web Storm, Clickup, Jira, Trllio
Databases:	SQL, My SQL, Mongo DB, SQL Lite, Realm DB

PROJECTS / OPEN-SOURCE

Maxim Fitness   *Javascript, React Native, Third Party API's of Neutri X, RN-iap, Firebase, Auth 0, Redux Saga, Pubnub Chat Integration, DJango, stripe Integration*
- Developed 'Maxim Fitness,' a Mobile application aimed at managing health and gym exercises.
- The platform allows users to track their daily calorie, protein, and carbohydrate intake, and share fitness progress with followers.
- The project also includes features for personalized coaching and workout management, helping users stay on track with their fitness goals.
- Integrated with social features to enhance community engagement and knowledge sharing.

Oono   *Javascript, React Native, Next JS, Node JS, TypeScript, Firebase, Auth 0, Redux Toolkit, Socket.io*
- Developed 'OONO,' a cross-platform application for both mobile (using React Native) and web (using Next.js and TypeScript), with a Node.js backend.

- The project focuses on advertisement and brand management, enabling users to create collections and stories for ads, and deploy them across multiple websites.
- Integrated Stripe for payment processing in the premium version, providing advanced features for seamless ad management and monetization.

Office Management System   *Javascript, React Native, React JS, Firebase, Mobx, Mobx State Tree, Fast API's, DJango, Single SPA, Ant Design, Styled-Component, RN-paper-element*
- Contributed to the development of a comprehensive Office Management System, focusing on key functionalities including user authentication, task and project management, calendar integration, document management, and communication modules.
- Developed and implemented various modules within the system, including the Payroll module, which features payroll history, search Fiters, and CRUD operations.
- Utilized React.js for building dynamic user interfaces, Single SPA for micro-frontend architecture, and
- MobX/MobX State Tree for state management.
- Integrated Firebase for authentication and

Over Time   *Javascript, React Natve, Firebase, Auth 0, Redux Toolkit, DJango, Fatora, Firebase Chat*
- Developed 'Over Time,' a platform connecting service providers and consumers.
- Service providers can offer a range of technical and non-technical services, including gaming, teaching, coaching, and more.
- Consumers can browse, select, and pay for services based on their specific needs, creating a seamless marketplace for personalized service exchange.
- Integrated features for secure transactions and service management.

CERTIFICATIONS

- Basic Javascript Developer - Hacker Rank.
- Intermidate Javascript Developer - Hacker Rank.
- Mid-Level Javascript Developer - Solo Learn.

HONORS & AWARDS

- Team Player Award From Enigmatix
- Rapid Achievement Award From Enigmatix
